

FIGURA NOVA

FOUNDATION

Stichting Figura Nova Foundation Annual Report 2020

Introduction:

Without a doubt, 2020 has tested our ability to adapt and find innovative ways to engage with our families, professions, and the world around us.

On behalf of the foundation, we want to start by giving a BIG THANKS to all our partners, advisors, sponsors and especially to our SBP Test Case Participants, Mamma-care Specialists & Retailers. Simply put, your trust and support are an important driving force and inspiration behind this journey. Especially in these very demanding times.

In 2019 we closed the annual report by stating that the market, technical, design and manufacturing expertise will be a critical part of our strategy in securing that the SBP Project got-off with sound foundation. In addition to our continuous funding effort main focus in 2020 of and scaling-up board members, operational infrastructure and testing.

Milestones achieved in 2020:

1. Met our recruitment goals of 10 Test-Case Participants (TCP).
2. Successfully conducted interview and scanning sessions.
3. Design, produced and tested various SBP prototypes.

However, our operations, TCP and manufacturing partners have been severely impacted by Covid19. This has had negative ripple effect on our funding goals and therefore on the (im)possibilities of our plans/strategy.

This will -needless- to say – mean that moving forward we will be rethinking strategy/planning. After the board has done this review, we will inform all stakeholders of the new status and our proposal for action.

No more than ever, raising funds to support SBP Project will remain one of the foundation's core activities in 2021, in addition to scaling-up board members, operational infrastructure and testing.

On behalf on the foundation, we thank all our donors, network and personal relations for their ongoing commitment and support.

And, once again thanks for being part of our story!

Victor Luis Portes
