

Figura Nova Foundation Annual Report 2022

Introduction:

The COVID Pandemic is still testing our resolve to fund and find innovative ways to continue with our mission and the SBP project, however we are starting to see the light at the end of the tunnel! On behalf of the foundation, we want to give a BIG THANKS to all our partners, advisors, sponsors and especially to our SBP Test Case Participants, Mamma-care Specialists and Retailers. Your trust and support are an important driving force and inspiration behind this journey.

In 2021 we closed the annual report by stating that FNF:

1. In collaboration with manufacturing partners, continued to fine-tune our methods, techniques, test prototypes and materials despite challenging logistics, material(s) scarcity and a high increased in manufacturing prices.
2. Strengthened relations with Test-Case Participants (TCP), Mamma-care Specialist, and new technology partners.
3. Continued to strategise our funding activities, while dealing with the pandemic.

Milestones achieved in 2022:

1. We partnered with **BASF** the renowned global material producer, and **autumn 3D** a local 3D printing manufacturer in Gouda, The Netherlands. This collaboration has yielded very promising results with regards to material quality, speed of production better logistics, and considerable cost savings. Currently we are testing various prototypes in a live case study, and soon we expect to extend it to the rest of our Test-Case Participants (TCP).
2. Fine-tuned our design-to-print workflow processes, deliverables project timeline and SBP test-case cost scenarios.
3. Continued to strategise our funding activities, while dealing with the COVID.

Raising funds to support SBP Project will remain one of the foundation's core activities in 2023, in addition to scaling-up board members, operational infrastructure and continued testing.

On behalf on the foundation, we thank all our stakeholders, donors, network and personal relations for their ongoing commitment and support.
Thank you for being Part of Our Story!

Victor Portes
Chairman
