

## Figura Nova Foundation Annual Report 2023

### Introduction

2023 has been a year of progress, collaboration, and renewed focus on our mission. With a strong foundation of partnerships and innovative strategies, we are seeing promising outcomes in our product development and outreach. Challenges have shaped us, but they've also strengthened our resolve, sharpening our focus on creating meaningful impact.

A major turning point for the year has been the **pivot to the creation of our FiguraNova Lab+ Concept**, a development that is being received exceptionally well by our core collaborators and target audience. This innovative space for rapid iteration, testing, and development is opening up exciting new possibilities, especially for fundraising and collaboration, making it a key part of our strategic growth.

On behalf of the foundation, we extend a BIG THANK YOU to all our partners, advisors, sponsors, SBP Test Case Participants, Mamma-care Specialists, and Retailers. Your trust and support continue to be the driving forces behind our journey. Together, we are shaping a future of impactful innovation and meaningful change.

### Milestones Achieved in 2023

**This year, our collaborative efforts have reached a significant turning point:**

- **Proof of Concept Validated:**  
Thanks to our partnerships with BASF and Autumn 3D, we now have a high level of confidence that our SBP solution works effectively. Rigorous testing has confirmed the feasibility and potential impact of our product, a testament to the strength of these collaborations.
- **Scaling Impact:**  
The success of our live case studies is paving the way for broader implementation with Test Case Participants, bringing us closer to delivering impactful solutions at scale.
- **Exploring New Frontiers:**  
We are in the initial phase of exploring a long-term partnership in the healthcare and medical 3D printing sector. This marks a significant step toward broadening the application of our expertise and creating transformative solutions for the healthcare industry.
- **New Opportunities in Innovation:**  
We are identifying new opportunities in point-of-care solutions and exploring how AI and machine learning can be integrated into our processes to enhance our solutions and impact.

- **Expanding Partnerships:**  
We are in talks with leading brands such as HP, opening new avenues for collaboration and innovation.
- **Operational Growth:**  
By strengthening our core team and infrastructure, we are preparing for sustainable growth. This includes recruiting new talent and expertise, particularly in fundraising and leadership roles.

### **The Critical Role of Funding**

Funding remains critical to our organization as we scale our initiatives and explore new opportunities. Expanding our capabilities in point-of-care healthcare, AI, and machine learning requires sustained investment to ensure we remain at the forefront of innovation. Your ongoing support is vital to making these advancements possible.

### **2023: Building Momentum**

With renewed confidence in our SBP solution, the year has been one of tangible progress and preparation for scaling up. Our collaborative model and strategic approach continue positioning us as leaders in innovative, patient-centered solutions.

### **Looking Ahead**

As we move forward, our priorities include:

- Scaling the SBP project to reach more Test Case Participants.
- Expanding our leadership and operational infrastructure.
- Deepening partnerships and exploring new opportunities for collaboration in healthcare innovation and AI.
- Continuing to raise funds to support our mission and impact.

### **A Closing Note of Gratitude**

To all our stakeholders, donors, and supporters—thank you for being part of our story. Your unwavering commitment drives us to achieve more and make a lasting impact. Together, we are building a brighter future.

### **Thank you for being Part of Our Story!**
